

*Designing solutions that work every time.*

## About Us

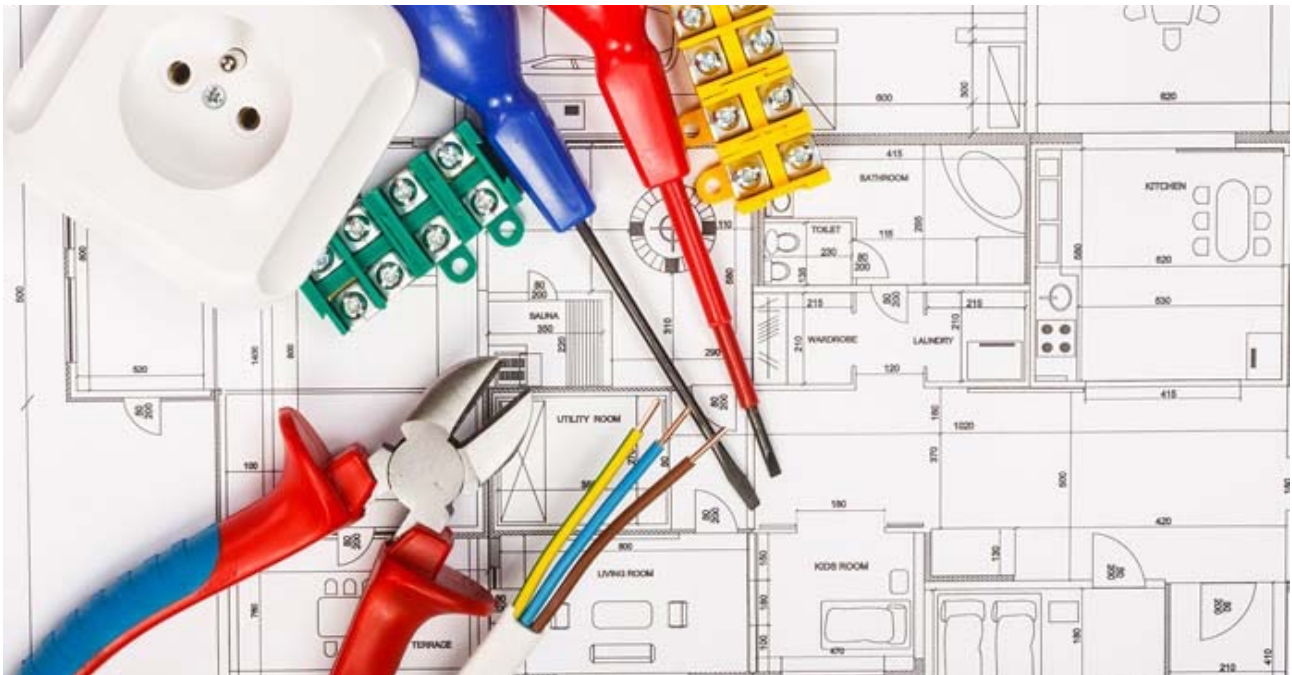

BluEnergi brings with it an extensive market experience of 10 years putting together all the technical know-hows and solutions with an impeccable service record for delivering on time... every time. Understanding the critical nature of spare part availability and the negative impact of downtime on a Company's operation, we work hard to bring/apply the most accurate solution for your requirement in the most efficient time frame.

Our team gives utmost important to fully understand our Clients requirements and expectation and are committed to propose the most budget friendly product that matches their needs. This is done through thorough technical research and extensive market knowledge which helps to not only propose an accurately viable product, but also the product that is readily available to reduce turnaround time.

Our effort showed results by reducing the overall operational cost through procurement for our Clients and also the reduced need to keep high quantities of inventory as stock. The last 10 years has also brought with it huge amount of customer feedback which has helped us to improve the products and its reliability, increase our customer support structure and upscale our vision of reduced lead-time for service.

Be it electrical, mechanical, hardware or IT, we have a solution for you. Come speak with our team today to learn how we can help reduce your operational cost. Our promise to you is your inquiry will always fetch you answers, which we strongly believe will suit perfect for your needs.

*Accurate solutions come from extensive hands on market experience.*
